There are a number of minor differences between the Large and Small dates. The one consistent difference that makes it easy to identify them is the figure "6." On the Large Date, the top is more curved and extends farther to the right. On the Small Date, it is straight and more blunt.

THE "MONNAIE DE LUXE" OF TURKEY

Many collectors wonder why modern Turkey has issued, side by side, two kinds of gold coins; one the more drab regular variety, in appearance and size closely modelled after the gold coins of Great Britain, and another flat variety with a personality all its own.

The latter is called "Monnaie deluxe" or Luxury Money and is not infrequently met with in denominations of 500 and 250 Piastres, equal to 5 and 2 1/2 Pounds gold. The fad started with Abdul Hamid II, who became Sultan in 1876

"MONNAIE DE LUXE" OF TURKEY (Continued)

and continued into the current Century; in fact, the most recent "monnaie de luxe" was issued by the Republic of Turkey between 1944 and 1947 and encompasses the denominations of 500, 250, 100, 50 and 25 Piastres gold, all very thin and of spread fabric while the regular gold coinage follows the British models.

Abdul Hamid's coinage is splendid indeed. Instead of the usual tughra or signature on obverse, the luxury money shows an elaborate trophy of arms, cannon, flags, a scale and sundry decorations, with the tughra above and the whole thing within a frame of ornamented stars. The reverse designs, while similar to the regular gold reverse types, is also surrounded by a circle of such stars. The edge of the coin is milled obliquely, a somewhat antiquated method at the time of the issue of the Luxury Money around 1892. Similar pieces were issued also by Abdul Hamid II's successors, notably Mohammed VI, who ruled from 1918 to 1922. The Republic continued the custom.

The main purpose for the issue of such unusual coins was the need for a handsome presentation piece by the Sultan and other men of importance and wealth, of which there were many in the days of the Ottoman Empire. The Luxury Money was given in payment of services to Harem favorites, to people who would be offended if they were handed "ordinary" money in recognition of their services. There were many harems in existence as late as 1918 and consequently the need for such gold coins was not inconsiderable. The Republic did away with harems but not with the need for a polite form of "baksheesh."
